DETAILED ACTION

This case has been transferred to Examiner Kelly Jerabek. Please direct all future prosecution to Examiner Jerabek whose contact information can be found at the end of this action.

Election/Restrictions

This application contains claims directed to the following patentably distinct species of the claimed invention:

First Species: figures 1-6C

Second Species: figure 7

Third Species: figures 8-9

Fourth Species: figures 10A-10B

Fifth Species: figures 11A-11B

Sixth Species: figures 12A-12B

Seventh Species: figures 13A-13B

Eighth Species: figures 14-16

Ninth Species: figures 17-20

Tenth Species: figures 21A-21B

Eleventh Species: figures 22A-22C

Twelfth Species: figures 23-24

Thirteenth Species: figures 25-27

Applicant is required under 35 U.S.C. 121 to elect a single disclosed species for prosecution on the merits to which the claims shall be restricted if no generic claim is finally held to be allowable. Currently there are no generic claims.

Applicant is advised that a reply to this requirement must include an identification of the species that is elected consonant with this requirement, and a listing of all claims readable thereon, including any claims subsequently added. An argument that a claim is allowable or that all claims are generic is considered nonresponsive unless accompanied by an election.

Upon the allowance of a generic claim, applicant will be entitled to consideration of claims to additional species which are written in dependent form or otherwise include all the limitations of an allowed generic claim as provided by 37 CFR 1.141. If claims are added after the election, applicant must indicate which are readable upon the elected species. MPEP § 809.02(a).

Should applicant traverse on the ground that the species are not patentably distinct, applicant should submit evidence or identify such evidence now of record showing the species to be obvious variants or clearly admit on the record that this is the case. In either instance, if the examiner finds one of the inventions unpatentable over the prior art, the evidence or admission may be used in a rejection under 35 U.S.C. 103(a) of the other invention.

Art Unit: 2612

Applicant is advised that the reply to this requirement to be complete must include an election of the invention to be examined even though the requirement be traversed (37 CFR 1.143).
